

Adaptive Aquatics Registration Instructions:

Adaptive Aquatics lessons are one on one swimming lessons for people who experience disability. We allow for non-traditional skill progression, focusing on what the swimmer can do. Sometimes the strokes or skills will not be typical. We can cater to the specific needs of the individual.

To request a class, please fill out the form using the link above. Indicate the facility, times, dates, and sessions you would like your swimmer to attend. Be as specific as possible. We will do our best to accommodate your needs. If you have filled out the form previously, just fill out through question 15 unless you would like to update the form. The form is confidential. Only supervisors, programmers, and the instructor will see the information you provide.

When we have arranged a class for your swimmer, we will contact you and we can enroll your swimmer. Thank you kindly!
