

Fanno Farmers Preschool

Handbook 2024-2025

Cultivating curious and creative minds!

Welcome to the Conestoga Recreation & Aquatic Center's Fanno Farmers Preschool Program! The first few years of a child's life are very important in shaping the people your children will become, and we are thrilled to be a part of this process.

Philosophy: Every aspect of what we do with the children is focused on respect. The teachers at Fanno Farmers believe that a child's sense of self-esteem is the centerpiece of how they view the world. When children are treated with respect, they in turn will treat others with respect. If children are taught to be caring and respectful towards our environment, our planet will prosper and give back tenfold. If children are taught to care about and be sensitive to their peers, school will always be a welcoming and exciting place to spend the day.

At Fanno Farmers, our philosophy is to provide a developmentally appropriate environment for children. We strongly believe in encouraging children to develop their self-help, language, and social-emotional skills in addition to academics. Physical development and brain development at this age have a close relationship and we place a huge emphasis on this connection.

Every child is naturally creative, curious, and loves to learn. It is our job as parents/guardians and teachers to present opportunities where children can be stimulated and challenged in a positive, non-threatening environment, where each can explore and use their imagination and discover their innate style of learning.

Fanno Farmhouse, 8405 SW Creekside Pl., Beaverton, OR

*Please note that parking at Fanno Farmhouse is only allowed on the street. Do not park in other businesses parking lots.
